

Bosnia and Herzegovina has been included in the Central European Exchange Program for University Studies - CEEPUS III since 2007.

The main goal of the current CEEPUS III program is to connect scientific research areas and develop academic cooperation through the creation of university networks that will, among other things, work on joint programs and acquire the right to joint degrees, as a strategic program for implementing the Bologna goals. CEEPUS exchange takes place within networks along with the freemover exchanges. Universities/Departments wishing to participate in the Exchange Program must do so within the networks. Every year, in October, a new round for submitting network applications for the next academic year opens and remains open until January 15 each year.

Student mobility can last one month or one semester or minimum 21 days at a selected partner university outside Bosnia and Herzegovina. When it comes to teacher mobility, it can last between a month and a month and a half or minimum 10 days.

The amount of the scholarship for each country is determined based on the level of its economic standard. For Bosnia and Herzegovina, the monthly amount of scholarships for students, graduates, postgraduates and doctoral students is 360 EUR, and for doctoral students employed at the university and professors - 485 EUR.

Detailed information and complete documentation required for the application can be found on the CEEPUS III program website <https://www.ceepus.info/#nbb>.

On November 19, 2013, the University of Bihać, together with all other state universities in BiH, and the Ministry of Civil Affairs of BiH, the Federal Ministry of Education and Science and the Ministry of Education and Culture of RS, signed the Agreement on CEEPUS III Agreement in Bosnia and Herzegovina. Since the signing of the contract, the University has established cooperation with partners to finance six CEEPUS III networks within which the outgoing and incoming mobility of students and teachers is realized:
